Washington, D.C. 20231Amendment/Reply to Office Action

Sir:

Enclosed is a reply in the above-identified application in response to the Office
Action dated 26 February 2002.Please amend the claims as follows. Attached is a marked-up copy of the
amended claims.

- 500
Q1
1. (Amended) A method for characterizing an image comprising:
partitioning the image into a plurality of partitions, each partition including a
plurality of pixels, each pixel having a color,
determining a frequency of occurrence of each color of the plurality of pixels
within each partition, and
creating a characterization that includes a plurality of measures that are
proportional to the frequency of occurrence of a plurality of colors.
- 92
3. (Amended) The method of claim 2, further including
identifying a plurality of populous colors, based on the frequency of occurrence of
each color, and
the plurality of measures includes proportions of each of the plurality of populous
colors in each partition.
